Just A Few Weeks to Make History:

Call on Your Senators to Pass the America Gives More Act in September

Dear Alliance Members,

The [America Gives More Act](#) promotes giving to the work of charitable nonprofits in every community across the country. This legislation permanently extends tax incentives for donating food, land, and resources from IRAs to charities. It allows individuals to get credit for their prior-year taxes for charitable contributions up to April 15, and streamlines the foundation excise tax, thus making more money available for good works.

U.S. Senators are scheduled to return to Washington, D.C. for only a few weeks in September before leaving again to campaign for re-election. This small window of opportunity for enacting permanent charitable giving tax incentives may be lost after the elections are over and 113th Congress adjourns.

We [co-signed these letters](#) to our Senators with the Arizona Grantmakers Forum and urge you to send a letter as well.

The simple message is:

“Senator, don’t leave Washington in September until the Senate passes the America Gives More Act (H.R.4719); our communities are counting on you.”

Call or write your Senator today! ([See sample letter](#))
